Year 2022/2023 - Friday Afternoon Drink 3 - Month 12

Inter-Actief Top 100

It is already time for the last PVC() of the year. The PVC is the paper published at every Friday Afternoon Drink organised by Inter-Actief. Today, the Friday Afternoon Drink is not only organised by Inter-Actief, but a whole radio show has been set up alongside! With this radio show, we can end the year right by being together and listening to our favorite music.

New year, New SBZ

From Hanna Gardebroek

As the year comes to an end, it is time for the old board of Stichting Borrelbeheer Zilverling to put down their beer pulls and leave room at the bar for a new board. As it just so happens to be, I am going to be Secretary of this new board :). As a Secretary, my job includes writing e-mails and other pieces of text, this is why I am now writing for the PVC! Are you curious who the other board members are? Check out our Instagram @sbz_utwente!

However, the old board is not done yet. Which is why today we have 5 craft beers for our Winter Tasting! The beers include: Grolsch Finale, Grolsch Aged Herfstbok, Grolsch Weizenbock, Gouden Carolus and Grolsch Winterbock! So make sure you drop by the Educafé today, and have a Merry Christmas and a happy new year!

ChatGPT: The AI Assistant That's Always Ready to Help

As the end of the year approaches, it's time to reflect on all the amazing things we've achieved. And there's no better way to do that than with a drink and a good radio show. But while we're raising our glasses to the future, let's not forget about the little helpers that have gotten us this far.

Meet ChatGPT, the AI assistant that's always ready to lend a hand. Whether you need help with a tricky homework assignment or just want to have a casual chat, ChatGPT is here for you.

But ChatGPT isn't just any ordinary AI assistant. It's been trained on a massive amount of data and can understand and respond to a wide variety of inputs. It's also constantly learning and improving, which means it's always getting better at helping you.

So as we raise our glasses and bid farewell to another year, let's give a cheers to ChatGPT and all the other AI assistants out there. They may be virtual, but they're always there for us when we need them.

Oh, and by the way, this piece was actually written by ChatGPT itself! Happy holidays!

Cookie Corner Wrapped

From Niels

In 2022, we sold a lot of stuff in the cookie corner. Ranging from the ever popular "Tosti 35 Ham/

Cheese" to the "Speculaastorono" which is only popular under certain old board members.

So, what did people get from the cookie corner in 2022?

The most popular product was - to no surprise - a tosti ham and/or cheese. It got sold a whopping 3506 times! If you were to stack these tostis on top of each other you would get a tower that is 87,65 meters high. That is 30 meters higher than the horsttoren!

The day that we sold the most products was the 26th of March, where 278 products were sold! This day people consumed 59 bottles of Grolsch. All these sales amount to 35000 KCal, which is enough calories for someone for 14 days!

In total there were 18874 transactions in 2022, which is around 51 per day.

Found these numbers interesting? Then keep a look out on the Inter-Actief website, an update with personal statistics is coming out soon!

Top 100: Behind the Scenes

From Kevin Alberts

As a good portion of you reading this PVC are probably either TCS or BIT students (and because we still need to fill some space), you might be interested in how the technical side of this event is managed. As you might have seen we have both a video and audio stream. These are both sent to you via the Inter-Actief servers.

For the audio stream we are using a simple Ice-cast server, which our DJ software connects to. The video stream is sent to our own streaming platform, based on Open Streaming Platform, which I can not recommend to set up, but once it works it's pretty decent.

Both streams are running on our own Kubernetes cluster and are split across 3 servers, so all in all we can handle around 800 people watching or listening our stream using our 3 gigabit uplinks. At the moment of writing we have around 90 viewers and 60 listeners, and we are broadcasting around 600 megabits on to the interwebs, so we still have some head room! If you're interested in this and are a member of Inter-Actief, the System Administration committee can always use more help!

Public Void Puzzle();

Halloween Town is taking over Christmas Town's holiday, and their mechanical countdown clock is being readjusted for the countdown to Christmas instead! Help the mayor switch on the clock by coding in the remaining 0's and 1's. There cannot be more than two of the same horizontally or vertically adjacent to each other (more than two diagonally adjacent is accepted). Study the clock from top to bottom... what is everyone waiting for?

Answer:

— — — —

0	1	1	0							
	0	0			1		0	0		0
				0				0		0
	0	0	1			0				
		1							0	1
1			0							0
	1	0	1	1		1		0		1
	0			0			0	0	1	
	1	1			1					0
0	0		1	0		0	0		1	0

The first person to solve this puzzle wins free beer! Answer is at the bartenders

Glühwein Tasting

By some members

Very nice that there are no pieces in it, but it could have been a bit more cinnamon and orange. Also, it should have had a little more love. I don't know if my glühten allergy is going so well. And it tastes better out of a boot!
~ Darrell

I like the glühwein very much. 6.9 or a 4.20!
~ Thijs

Nice glüh. I wouldn't save as .wav. Bit of a headache...
~ Reinier

Better than regular wine. I don't like regular wine.
~ Leo

It could have been a bit more fruity, herbs, it lacks the finishing touch. 6.5/10!
~ Justin

The glühwein should have been just a bit warmer and it should have had a bit more spices, nice that there are no pine needles in it. It would have been tastier if it had been weizen.
~ Denise
